

# AS SERIES TINED WEEDERS

**A FLEXIBLE WEEDING SOLUTION  
THAT ELIMINATES 90% OF UNWANTED WEEDS**

# AS 600 M1 / AS 900 M1 / AS 1200 M1 TINED WEEDER

The AS Series Tined Weeders efficiently pull out weeds that have germinated, leaving them on the soil surface to wither. Approximately 90% of germinated weeds are stopped in their tracks. With the available widths of 19.8 ft, 29.6 ft, and 39.4 ft for the AS 600 M1, AS 900 M1, and AS 1200 M1, respectively, there is a tined weeder for every operation. Plus, these weeders are great combined with our PS 300 – PS 500 Air Seeders. Great for organic operations.

## ✓ FEATURES

- Tines have 0.8" tips for longer service life
- Greater bend angle of the tines for excellent harrow result
- Chain suspension, individual suspensions and lateral fork compensations ensure constant adjustment to ground contours
- Feeler wheels that can be adjusted to the track width
- Smooth folding due to curve control and longer hydraulic cylinders
- Lower linkage catch tongue for easier coupling of the harrow
- Uniform work pattern across due to ideal tine spacing
- Lateral sections automatically pivot in due to parallel guidance

## i TECHNICAL DATA

	AS 600	AS 900	AS 1200
↗ Working Width . . . . .	19.8 ft	29.6 ft	39.4 ft
⚖ Weight . . . . .	1,103 lbs	1,875 lbs	2,867 lbs
⊕ Feeler Wheels . . . . .	2 tires	4 tires	4 tires
∅ Tine Diameter . . . . .	0.27" (7 mm)		
# Number of Tines per Section . . . .	48 tines, 17.7" long		
→ Tine Spacing . . . . .	1.2"		
🔧 Mounting Category . . . . .	CAT 2 or CAT 3N		
🔧 Tractor Performance: sufficient hydraulic lift for weeder; double-acting hydraulic required for folding
